ENORMOUS FORCE IS MARCHING
TOWARD SUEZ—THIS IS
HOLY WAR.

IRISH GERMAN NEGOTIATIONS

Visit of Sir Roger Casement to Ger-
man Foreign Office Causes
Much Comment.

TURKS IN RIOT.

Petrograd, Nov. 28.—Rioting
Turks, moved by the proclama-
tion of a holy war, have caused
the death of four Armenians and
are burning the churches and
schools at Teheran, Turkey.

HEAVY GERMAN LOSS

Lomborg, Galicia, Nov. 28.—The
Germans lost 17,000 men, a heavy ar-
tillery battery and 28 machine guns
in a three days' battle 15 miles from
Lodz, says an authoritative source.
In the same fighting the Austrians
lost 16,000 men and 20 machine guns.

WAR SUMMARY.

(Associated Press)
Reports from Cairo, Egypt to Ber-
lin say that the movement of Turks
against the British in Egypt has be-
come formidable, 76,000 of them, in-
cluding 10,000 Bedouins, being on
the march toward the Suez canal. In
view of the recent proclamation of a
holy war this is regarded as most sig-
nificant.

INDEFINITE IN EAST.

The situation in Russian Poland re-
mains indefinite while calm continues
in the west.

SUSPECT NEGOTIATIONS.

The visit of Sir Roger Casement to
the Berlin foreign office has caused
much comment in the papers and the
general opinion seems to be that
there have been direct negotiations be-
tween the extreme sections of the
Irish Nationalists and Germany.

FIRE WITHOUT INCIDENT.

A Paris official statement says the
artillery fighting in Belgium has been
without particular incident. The re-
port also says that one attack of the
German infantry has been repulsed,
that a German aeroplane with three
men was brought down by the French
and one of the Germans was killed,
the others made prisoners, and that
there is no change in the Arras re-
gion further south or in the region of
Argonne and Vosges.

KAISER WILHELM DER GROSSE WAS SUNK?

Lee County Boy Writes Of State Fair School

The following story of the experi-
ences of one of Lee county's boys at
the State Fair school is of particu-
lar interest, in that it shows the
work which is given the boys and the
attention which is paid to them by
the State Board of Agriculture in
preparing them to become capable
farmers. The report is written by
Lewis E. Miller, R. F. D. No. 1,
Compton:

The delegates for the Boys' State
Fair school must be over 15 years of
age, and under 21, and are select-
ed by examinations held at the county
seat of each county, and also by
appointments to fill vacancies.

The examinations are given
jointly by the county superintendent
of schools, the president of the
county farmers' institute and the
chairman of the county board of su-
pervisors.

I left home Friday morning, Sept.
18th, and went to Mendota where I
boarded an I. C. train and there
joined Supt. L. W. Miller and the
boys of the 13th Cong. district, who

Santa Claus Has Sub-Station Office With Telegraph

Saint of Children Wants Them
To Write Their Wants
To Him Soon

The boys and girls of Dixon and
Lee and surrounding counties, who
have been wondering how they were
going to communicate their wishes to
Santa Claus this year, will be delig-
ted to learn that the great patron saint
of the youngsters has again arranged
for the Telegraph to take care of the
mail addressed to his toy shop. Santa-
Claus's big joy-making institutions have
been at work all the year and he is
ready to make all happy.

Therefore the little ones who wish
to make known their desires have the
opportunity and letters addressed to
"Santa Claus Care of the Evening Tel-
egraph," will reach St. Nicholas. Santa
has arranged that these letters be
opened and read in the Telegraph of-
fice and be printed in the paper, and
as he gets the Telegraph he will be
able to get all his little friends' wants
concisely and together out of the pa-
per, thus saving his secretary the
work of opening so many individual
envelopes. The only condition Santa
makes is that the letters reach the
Telegraph on or before Saturday, De-
cember 19. Letters received after that
time can't be forwarded him in time
for Christmas.

MISS EDITH GROVER ANSWERS LAST CALL

DEATH RELIEVED HER SUFFER-
INGS AT HOSPITAL FRIDAY
AFTERNOON.

Miss Edith Grover passed away at
the Dixon hospital at about 3:35
o'clock Friday afternoon, death fol-
lowing an operation for relief from
an illness with which she had suffered
since July. The funeral services
will be held at the home of her brother
City Clerk Blake Grover, 315 East
Fourth street, Sunday afternoon at 3
o'clock, Rev. A. B. Whitcombe officiat-
ing and with interment at Oakwood
cemetery.

Miss Grover was born at Liberty,
Adams county, Ill., 54 years ago. She
has made her home in this city many
years with her mother.
Beside her sorrowing friends she
leaves her bereaved mother, Mrs. A.
E. Grover, and brother, Blake Grover
of this city; her brothers, Ferguson
Grover of St. Louis, Hatcher M. Gro-
ver of St. Louis; Donald Grover of
Chicago, and two sisters, Mrs. V. M.
Ridgely of St. Petersburg, Fla., and
Mrs. E. A. Wright of Porterville, Mo.
Mrs. Wright has been with her sister
the past two weeks.

Miss Grover was a member of the
Mystic Workers and a consistent mem-
ber of St. Luke's Episcopal church—
widely charitable and deeply sympa-
thetic; and a large number of the un-
fortunate and afflicted of the city will
mourn her passing.

Mr. and Mrs. L. Jacobson have
gone to Chicago for a visit with rela-
tives.

DIXON MAY SECURE NEXT MEETING OF TEACHERS' ASSN.

WESTERN DIVISION OF NORTH-
ERN ILLINOIS ASSN. MAY
MEET HERE.

COMMITTEE WILL DECIDE TODAY

Executive Committee Is Meeting in
Rockford to Select Meeting
Place.

The next annual meeting of the
Western division of the Northern Illi-
nois Teachers' association will in all
probability be held in this city, unless
present plans now on foot miscarry
with the executive committee of that
association which was in session to-
day at Rockford.

The executive committee held a
meeting there to determine the time
and place for the next annual meet-
ing. Dixon is a strong bidder and will
probably land the big educational
meeting.

Would Bring Many.

Should the committee select Dixon
as the next meeting place for the as-
sociation it will mean that all of the
teachers in this section of the state,
hundreds of them will be here for a
two days' meeting.

FAMOUS READER AT METHODIST CHURCH

MISS BOWMAN OF OHIO UNIVER-
SITY AT THE EVENING
SERVICE.

At the Methodist church on Sunday
evening in addition to the program of
appropriate readings to be given by
Miss Bowman of Ohio Northern Uni-
versity, Ada, O., the following special
music will be given:

"Lord for Thy Tender Mercy's Sake"
by Roberts—Mrs. Belle Harms and
Choir.

Soprano and tenor duet, "Confidence"
Pinsuti—Mrs. L. L. Edwards, Mr.
Fred Ryan.

Miss Bowman has appeared in over
three hundred entertainments; one
hundred and fifty have been return
dates.

MERCHANDISE CAR ROBBED IN NIGHT

NORTHWESTERN IS SUFFERING
REPEATEDLY FROM ROB-
BERIES OF THIS KIND.

A merchandise car on the west
bound Northwestern freight train
was robbed of several hundred dol-
lars worth of goods while the train
was traveling from Malta to Nelson
Friday night. The robbers got on
the train at Malta where the train
stopped for water and when it
stopped at Nelson, the car was found
to have been robbed.

Merchandise car robberies are be-
coming very frequent on the North-
western and the company has a large
number of detectives along their
line to get the guilty parties.

VAUGHAN TAKES LEADING PART

Frank Vaughan, son of County
Treasurer and Mrs. Frank C.
Vaughan, who is a junior in the col-
lege of liberal arts, Northwestern
University, has been selected to play
one of the leading roles in Clyde
Fitch's play, "The Climbers" which
the university dramatic club will
present on December 4.

Mr. Vaughan is one of the best
amateur actors that has appeared on
a Northwestern stage and the stu-
dents are expecting a brilliant piece
of work in the part which he will
play.

LINCOLN HIGHWAY FULLY OPEN

(Associated Press)

Detroit, Mich., Nov. 28.—The Lin-
coln highway, 3400 miles long, ex-
tending from coast to coast, is com-
pleted. Automobiles in relays covered
every foot of it between 6 o'clock in
the morning and 6 in the afternoon
Friday.

Dr. S. W. Lehman has purchased a

Man Wanted For Horse Stealing Is Under Arrest

Roy Jobe Who Stole Horse and
Buggy From Lee Read
Held In South

Foy Jobe, alias John Graves, who
is wanted by the local authorities for
stealing a horse and buggy belonging
to Lee Read and also by the United
States government for deserting from
the army, is in custody at Ft. Smith,
Ark. Sheriff C. P. Reid left late yes-
terday for Fort Smith to get his man.

The particulars of Jobe's capture
have not been learned but it will be
remembered that he hired a livery rig
from the Lee Read barn for a short
drive into the country and instead he
drove the horse to Chicago and sold
it.

Sheriff Reid went to Springfield to
secure the requisition papers from
Governor Dunne and will then con-
tinue to Arkansas and will ask the
governor of that state to issue extra-
dition so the man may be brought to
Dixon for trial.

To Be Tried Here.

While Jobe is wanted as a deserter
from the United States army he will
be tried for his crime in Lee county
first, the local authorities causing his
capture. An opinion as to priority was
received by Sheriff Reid from the ad-
jutant general of the army a few days
ago. He will be tried here first and
when justice has been meted out to
him he will be turned over to the gov-
ernmental authorities for trial for de-
sertion.

FELL ASLEEP WITH GAS TURNED ON

E. F. CORRY FURNISHED EXCITE-
MENT AT DIXON INN—WAS
IN NO DANGER.

E. F. Corry, guest at the Dixon
Inn Thursday night, came near los-
ing his life from asphyxiation when he
retired for the evening with the
gas jet in the room partially open.
He was asleep before the gas fumes
were noticed, and then the proprie-
tor, G. G. McCarty smelled the es-
caping gas and upon investigation
found that it came from the room oc-
cupied by Corry. McCarty entered
the room with a master key and
turned the gas off.

The window of the room was op-
ened and Corry returned to bed.
Later gas was detected emanating
from the jet, as the result of it not
being entirely turned off when it
was first discovered, but only a
small amount of gas was escaping.
The window was open and asphyx-
iation would have been impossible.

WILLIAM WEST HELD CHARGE IS THEFT FROM BUNK CARS

APPREHENDED BY NORTHWEST-
ERN DETECTIVE AT NELSON
FRIDAY EVE.

PACKAGE CONTAINED PLUNDER

Property Belonged to Ernest Minotti
A Section Worker at
Nelson.

William West was arrested at Nel-
son by railway detective A. J. Lar-
son Friday night as he alighted from
a west bound freight train in the
Nelson yards. West carried a large
bundle and was thought to have
been mixed up in the robbery of a
merchandise car somewhere between
Malta and Nelson. The detective
searched him and found that he was
not in any way connected with the
robbery of the merchandise car but
was held on suspicion.

The local police were telephoned
and upon investigation it was learn-
ed that a bunk car occupied by sec-
tion hands and located just a short
distance west of the Northwestern
depot, had been broken into and rob-
bed. Consequently West was
brought here to answer to the
charge of robbing the bunk car.

Found Plunder.

The package carried by West con-
tained a new suit of clothes, a re-
volver, five razors, some money of
the smaller denominations, some
Italian money, small account books,
revolver cartridges, a can of sar-
dines, a cake of soap and other
smaller articles. He wore a pair of
new shoes which he had taken from
the car and left his worn-out shoes
in their stead. Nearly all of this
property belonged to Ernest Minotti,
a section worker, and it was identi-
fied by him at the local police sta-
tion this morning.

This is the sixth time within the
last year that the bunk cars occu-
pied by the local section men have
been robbed.

West was arraigned before Justice
of the Peace Hannakken and he waived
preliminary hearing, being bound
over to the grand jury under bonds
of \$300.

ELKS' BIG BAZAR TO CLOSE TONIGHT

MONSTER CROWD WILL EMBEL-
LESS ATTEND FINAL
ENTERTAINMENT.

This evening will be the big night
at the Elks' bazar which will close
with the awarding of the handsome
diamond ring, and because of the en-
joyment which has attended the fair
throughout and the fact that tonight
will see the end of the week's enter-
tainment it is sure the crowd will be
exceptionally large. The dancing and
award of the ring will of course be
the features of this evening. Music
for the dancing will be furnished by
the Marquette orchestra.

Friday evening was another very
successful night. The crowd was grat-
ifyingly large and the dance floor was
thronged throughout the evening.
Prior to the dancing Miss Marcelle
Kent gave two very clever dances,
which delighted the large crowd. The
young lady danced with her usual pre-
cision and grace, demonstrating mark-
ed ability. She was accompanied by
Miss Myrtle Rice.

ASHTON MAN TO MT. MORRIS

John S. Noffsinger, principal of the
schools at Ashton, has accepted the
presidency of Mt. Morris college, suc-
ceeding J. E. Miller, who retires after
eleven years of service. The college
trustees have offered the position of
business manager to W. E. West of
Ankney, Ia.

SOLD SOUTH DIXON FARM

Nathan Hill has sold his farm, in
South Dixon, known as the Seybert
homestead, to Charles Bollivar of Ot-
tawa, the deal being consummated
this week. There are 198 acres in the
farm and the consideration was \$159
per acre.

Mrs. Ronohue of Chicago is spend-
ing a few days at the Jordan home.

U.S. Ambassador Herrick Honored In His Farewell

Every American In Paris And
French Officials Said
"Good-Bye"

(Associated Press.)

Paris, Nov. 28.—Myron Herrick,
retiring American ambassador, was
paid distinctive honors, when, with
his family, he left Paris this morn-
ing for Havre, where he will board
a vessel to sail for New York.

Nearly every American in Paris
was at the railway station to bid him
farewell and he was presented with
silver, flowers and addresses of good
will by clubs, societies and individ-
uals. Many French officials and
English residents participated in
the farewell.

ZOELLER FUNERAL SUNDAY AFTERNOON

SERVICES WILL BE HELD AT THE
HOME OF DAUGHTER, MRS.
GEO. KREITZER.

Funeral services for Frank A. Zo-
eller, who passed away at 2 o'clock
Friday afternoon, will be held at 2
p. m. Sunday at the residence of his
daughter, Mrs. George Kreitzer, 911
College avenue.

Frank Alois Zoeller was born at
Reilfelt, Germany, June 2, 1838, and
was married to Miss Josephine Ueh-
lein in October, 1858. She preceded
him in death April 21, 1906.

In 1861 he and his wife came to
America and settled in Franklin
Grove, Lee county, in which county
he has lived for the past 54 years. In
October, 1900, he moved to Dixon,
and has since then made this city his
home.

To this union were born eight chil-
dren, all of whom survive and who
were at his bedside during his illness.
Those surviving are Fred of Chicago,
Louis and Mrs. George Mattern of
Franklin Grove, Charles J. of White-
cloud, Mich., Harry of Coldwater,
Mich., and Mrs. George Kreitzer, Mrs.
Lena Kalbfleisch and Edward of this
city.

MOTOR BURNED OUT.

The motor on one of the city
street cars was burned out on First
street this morning, putting the car
out of commission.

MISS DOWNS LIKES COLD WATER SWIM

DIPPED IN COLD WAVES WITH
THERMOMETER BELOW
FREEZING POINT

The following from the Chicago
Tribune of this morning will be of in-
terest to many Dixon people:

Chicago's colony of icy water
nymphs is increasing and if the sport
keeps up winter bathing will become
a regular society pastime. Miss Harrie
Downs 15 years old, residing at 811
Michigan avenue Evanston, is the lat-
est to become known publicly. She is
an enthusiastic swimmer, a former pu-
pil of the Patton gymnasium of North-
western university, and dipped in the
cold waves when the thermometer
was below freezing last Sunday. She
is the daughter of E. E. Downs, gen-
eral manager of the Elgin and Belvid-
ere Interurban Railway Company.

Farnk Schoenholz and Supervisor
John Grove of Willow Creek were in
Dixon today.

Stole Suit Case; Found Only Young Lady's Finery

The mystery surrounding the find-
ing of a number of articles of wom-
an's apparel in the local railroad
yards Thursday night has been solv-
ed. A suit case containing the cloth-
ing was stolen from a baggage cart
while the railway and depot employes
were unloading baggage and it be-
longed to a Rochelle young lady who
had been away on a visit and had
checked her grip on the return. The
suit case was found yesterday.

The party who took the suit case is
known by both the local and Rochelle
authorities and Chief of Police Am-
brose Hodges of Rochelle was here
last night conducting an investiga-
tion.

It is believed that the grip was
taken and brought to this city before
it was opened. The thief then found
nothing but woman's clothing and
discarded it in the local railroad
yards.

FAMILY GIVEN HOLIDAY DINNER BY GOODFELLOWS

GREAT CHARITABLE WORK IS
STARTED IN EARNEST ON
THANKSGIVING DAY.

THERE IS NEED OF FINANCES

Dollar That Means Little to Some
Will Make Others Very
Happy.

Most all the people of Dixon live
fairly comfortably. The city is pros-
perous. There is probably no more
prosperous city of this size in the
United States. It is hard to believe
that there are families here who do
not get enough to eat, and who do
not have clothing enough to keep
them warm; but it is so, and that is
why the Good Fellows find so much
to do about this time of the year.

On Thanksgiving morning one of
the leaders of the Good Fellow move-
ment was notified that a certain Dix-
on family was without food. He
went immediately to the address and
found the home bare of even the ne-
cessities of life. Several little
children, clothed in rags, were pinch-
ed and ill for the want of something
to eat. The investigator saw one
little boy in the back yard of his
home, scoop up a handful of dirt and
put it in his mouth and attempt to
chew it; not because he was play-
ing, but because he was hungry. The
mother of the children is unable to
work and the father has been look-
ing for work. When the investiga-
tor for the Good Fellows was there
the father was out looking for a job
and for something to eat for his wife
and babies for Thanksgiving dinner.
The prospects were pretty blue for
them all, until the Good Fellow came
along, and then it was but a short
time until a basket of groceries ar-
rived.

Good Fellow's work is primarily
continued to Christmas, but when an
urgent case such as this is found,
they act at once.

But Single Case.

The above is only a single case,
the duplicates of which are to be
found in many parts of the city.
There are hundreds of little chil-
dren who will have no Christmas din-
ner, much less toys and warm cloth-
ing, unless the Good Fellows come to
the fore as they have in other years
and provide.

If you are sceptical concerning
poverty in Dixon, phone the Tele-
graph any day, and we will send
you out with an investigator to visit
families on our list, and before you
have gone far you will be unhappily
disappointed in your belief. We
can show you homes where direct
poverty is in control. We can take
you to little homes occupied by four
or five little children and a deserted
wife. No support is left them and
they are dependent upon the charity
of neighbors for their very living.

Many families are aided by the
county, but that means only fuel,
groceries and perhaps rent. It does
not mean a nickel's worth of candy
or a twenty-five cent doll for Christ-
mas. Don't think, Mr. and Mrs.
Good Fellow, that you can afford to
set aside a dollar to give a real
Christmas to some little waif who
can be made more happy with that
dollar than you could be with a hun-
dred?

Phone Number 5, and ask for the
Good Fellow department. Tell them
what you will do, or put your dona-
tion in an envelope and mail it to the
Evening Telegraph Good Fellow De-
partment.

There is poverty in Dixon and it
can only be aided with money.

Selections

EPITAPHS.

Some Curious Inscriptions From English Gravestones.

One person at least would not allow an epitaph which might be out of place in noble surroundings. In the West Cloister in Westminster Abbey, London, if we remember aright, there is a gravestone to the memory of John Broughton, verger of the Abbey, who was also champion prizefighter of England. There is a blank line under his name; it was left for the inscription, "Champion Prizefighter of England." On the other hand, the parson of Ledbury parish is said to have given his ardent approval to the "wholesale epitaph" which Sir William Hunter was wont to quote with great gusto: "Under this place lie several inhabitants of this parish. Further particulars the Day of Judgment will disclose." Before the days of obituary notices in the press the rude stone in the churchyard was very often the only means the bereaved had of disclosing the virtues of the departed. The governing principle, and rightly so, was de mortuis nil nisi bonum. They had but little space to say what they wished to say, and they desired to say it well and to leave nothing good out. Nothing could be more proper, for instance, than the estimate (in Chester, 1791) of John Vernon by his wife. Mr. Hill here detects the hand of the family lawyer:

Polite, learned, ingenious, upright:
To the best of husbands,
Ann, his afflicted relict,
Erected this.

But the result very frequently was that the friendly judgment became what it was never intended to be—a striking anti-climax. Mr. Hill does not give this one, but it is a good example of what we mean: "In loving memory of A—S—, died May 1, 1782. He was a devoted husband, an exemplary parent, an honest man and a first rate shot." Or: "In affectionate remembrance of John Warde, for forty years a grocer in this place and an honest man." Or a cherished text or quotation placed in juxtaposition may cause "the common beholder" to forget to be as solemn as he should be:

In loving memory of William Scott, Late Commander in service of the Alderney Steam Packet Company, now With Christ, which is much better.

In a class apart is Sir Henry Wotton's epitaph on himself at Eton College, claiming immortality for an epigram. He was distressed on account of the dissensions among the Reformers:

Here lies the first author of this sentence: "The Itch of Disputation will prove the Scab of the Church."

THE HALF-BACK.

A half-back is a college student who is suffering from sprained ankles, wader in the knee, a chipped hip, tangled ribs, a loose ear, and a condition in German.

These diseases are not contagious, and yet a half back catches them. No one runs after trouble so simply as a half back, or overcomes it so easily.

The half back plays behind the line of his own football team and under the line of the other team. His duties are numerous in the extreme. He has to grab a foolishly shaped football from the quarter back and carry it over and under and through eleven men who are determined to upset him and sit on his neck.

Without opposition a half back could carry this ball a mile at a time. As it is, he is proud and happy when he carries it five yards before his features are imbedded in the frozen ground. There are many occasions which require nerve unadulterated with thoughtfulness but none which requires more nerve and less discretion than that of trying to tunnel through two hundred pound guards and a center, all with destructive disposition.

TWO GOOD GAMES AT THE HIGH SCHOOL

THE SOUTH SIDE FRESHMEN AND GRAMMAR SCHOOL TEAMS ARE WINNERS

Two very interesting basketball games were played at the Dixon high school gymnasium Friday afternoon, the main contest of the afternoon, between the freshmen of the north and south side high schools, being won by the south side boys, score 16 to 5. In the preliminary contest the south side grammar school team defeated the freshmen's second team 8 to 5. Both games were well played and enjoyed by the spectators.

NEW TIME CARD.

The new time card by which the 1:16 p. m. eastbound passenger on the Northwestern is taken off, and the 12:53 p. m. westbound train becomes the Denver special, will go into effect tomorrow at noon.

NEW CUBS MANAGER AND HIS PREDECESSOR

Hank O'Day, the baseball manager who is famous as an umpire, loses out again in his attempt to lead a big league club to the pennant. Roger Bresnahan has become the manager of the Cubs and will lead them next year and, it is said, for three years, according to his contract.

Not long ago Bresnahan was ranked with Johnny Kling of the Cubs

positions. When the half back is not being used as a park bench by the other team he is serving as a harrow. Nothing amuses a football player more than to grasp a flying half back by the ankles and thus cause him to tear up several yards of sod with his regular Grecian features. It takes a very durable set of features to last an industrious half back through a football season.

When a half back is not doing these things he is allowing some large opponent to tangle his foot in his ribs, thus tripping him up and diverting his attention from a personal friend who is carrying the ball. It is also his duty when the other side is advancing to stand before a thundering giant and twist himself about said giant's legs. Catching automobiles by the hind wheel is good practice for this sort of work.

It will thus be seen that the half-back leads a busy and care-free life. He often goes to the back shop for repairs, but as a rule he finishes school with his class and all of his limbs and thereafter he displays a calm confidence in tackling trouble and ploughing through opposition which makes him known as a man who doesn't mind hard knocks. We need more half backs in politics—reform in these days being as vigorous and jarring an occupation as football.

Dramatic Notes

FAMILY THEATRE

The patrons of the Family are enjoying the excellent bill this week, consisting of the Elks' Trio, vocalists who render selections in a finished style that appeals to all lovers of music. Their work is especially good and their audiences are not slow in recognizing their ability. Evans & Sister, the marvelous foot jugglers, are without any exception the most clever in their line of any act ever seen in this theatre. Pictures tonight are: Current Events of the Week; The Squatter's Gal; Summer Resort Drill, and The Hand of Fate.

AT THE OPERA HOUSE

The Flora DeVoss company that is giving the finest of productions at the Opera House, will play tonight "The Right Road to Happiness," an exceptionally strong political play. Tomorrow evening "Plain Molly," a beautiful four act play, will be presented by this capable company with vaudeville sketches between acts. Miss DeVoss is her best in these productions and offers a rare treat to Dixon theatre goers who appreciate good shows at popular prices.

PRINCESS THEATRE.

Pictures tonight are "Mrs. Van Ruyter's Stratagem" in two reels, a Thanhouser drama with Harry Benham and Muriel Ostriche in leading roles. An interesting society drama. "The Stolen Masterpiece," an American feature with Ed Coxen and Winifred Greenwood in leading roles. "The Nigger" Majestic drama with Wallace Reid and Billie West in the leading roles. "Dash, Love and Splash," is a Keystone comedy.

ILLINOIS THEATRE.

The last two weeks of Klaw & Erlanger's musical comedy "The Little Cafe," are announced at the Illinois theatre, Chicago, where that brilliant musical comedy from the opening performance a fortnight since has nightly been welcomed by capacity audiences and the constant echo of their vociferous applause and laughter.

Not for years has such spectacular success been accorded a similar production in the city as that attained by "The Little Cafe," which is really the "last word" in musical comedy, and in its witty book and lyrics, its refreshingly delightful music and brilliant surroundings has set a pace that leaves far behind its predecessors.

The original company of over one hundred people which characterized its run of over one year in New York will be seen intact. Alma Francis, Harold Vizard, Tom Graves, Harry Depp, Gabrielle Grey, Colin Campbell and a host of others are all a very happy combination that wed laughter, melody and terpsichore into a stunning trinity.

The chorus of the organization is remarkable for the fact that it sings, dances and acts, and at the same time is one of the prettiest seen for many seasons.

Matinees will be given on Wednesday and Saturday. Curtain at 8 and 2.

PRINCESS—CHICAGO.

"Kitty MacKay" a three act comedy by Catherine Chisholm Cushing, is soon to be seen in Chicago at the Princess theatre for an indefinite engagement beginning on Sunday evening, Nov. 22, with the original company, including Miss Molly McIntyre, whose remarkable performance in the title role has raised her to stardom.

Kitty MacKay is renowned for its surpassingly interesting love story, for its cleanliness and freedom from the sex taint which has marred so many fine plays in the past few years and for its exceptionally brilliant dialogue.

The supporting company which surrounds Miss McIntyre includes several who have gained scarcely less renown in the Cushing play. Foremost of these is Miss Margaret Nyblom, the wee Scotch comedienne whose dry wit finds full play in the varied second act of the piece. Henry Stephenson, creator of The Messenger, in the American production of A Message From Mars, created, and still plays the role of Lord Inglehart. One of the most interesting young leading men on the American stage, Eugene O'Brien, a Yale graduate, European student and principal actor in the French drama society of New York for an entire season—will be seen as the soldier-lover Lieutenant David Graham. Ernest Stoddard, W. Stanley Groome, Carrie Lee Stoyke, Carl Lyle, Kate Wingfield, Clarice Laurence and Roland Rushon have prominent roles. Eleanor Scott L'Estelle, seen in Chicago as the leading woman in The Drums of Jude, has a character role.

Special attention is given to out of town patrons and to that end mail orders will be given prompt and immediate attention.

AMERICAN MUSIC HALL.

Helen Ware and "The Revolt" have made a hit of the biggest proportions at the American Music Hall and are evidently destined to remain there for some time to come. Miss Ware has long been popular with the theatregoers and her new theme gives her ample opportunity to broaden her hold on her many admirers and to gain new ones at the same time. In her present drama she has a role enabling her emotional genius, for it is nothing short of genius to shine to the best advantage. From start to finish of The Revolt she has her audience in a grip, moving it to tears, holding it vise-like in scenes of quiet intensity and thrilling it with her flowing outbursts of passion. The wretched woman, whom she portrays, the victim of a husband's indifference and worse, is not a rare figure today. Unfortunately she exists in great numbers, and every man and woman who sees The Revolt know of homes the exact counterpart of the home in the play, where the husband rarely appears until the small hours, and where the wife eats out her heart in waiting for him night after night and longing for the love which he has transferred to someone else. It is an appealing and powerful story, and it has made its way to the public heart, owing mainly to Miss Ware's superb characterization of the leading role. The actress is surrounded by one of the strongest supporting combinations ever seen in Chicago.

BOYS CLUB TO ORGANIZE

The boys' club of the Y. M. C. A. will meet tomorrow afternoon at 2:30 o'clock for the purpose of organizing for the year's work. The organization will be done under the direction of Secy. E. T. Bailey.

Lievan-Cramer Nuptials.

At high noon Thursday at the home of the bride's parents, Mr. and Mrs. Louis Lievan in Marion township, their daughter, Miss Rebecca L. Lievan, was united in marriage to Mr. C. Cramer of Seventh street, Dixon.

The wedding was beautiful in its marked simplicity of appointments, the guests being few, comprising the families of the contracting families. The ceremony was performed by Rev. F. D. Altman of this city, under an arch of white and yellow.

The parlors were profusely decorated in yellow and white chrysanthemums, smilax and palms and bitter-sweet.

Miss Lievan was attended by Miss Helen Cramer, sister of the groom, and Robert Lievan, brother of the bride was groomsmen.

The bride made a very attractive picture in a gown of embroidered white crepe. Her flowers were bride's roses.

The bride's maid, Miss Cramer, was daintily gowned in white net and she carried yellow chrysanthemums.

After congratulations all repaired to the dining room where a delicious three-course wedding dinner was served. Here the decorations were also yellow and white.

The afternoon was spent in music and in the evening the bride and groom came to Dixon to their new home, 415 College avenue.

Mr. Cramer is an employee of Mr. W. C. Jones and is a young man with a most promising future before him. His bride is a most attractive and highly esteemed young woman, whose popularity was evidenced by the many pre-nuptial parties given in honor of her approaching marriage.

Mr. and Mrs. Cramer embark on the sea of matrimony with the best wishes of countless friends.

AWNING FOR CHAIR.

Canopy to Shield User Can Be Attached to Back.

Sunshine has been robbed of its terrors for the fair sex by the ingenuity of a Scotchman. This man has devised a chair canopy or awning that can be attached to the back of any ordinary chair and put up or down at will. The canopy, which is like an awning frame, is pivoted to the uprights of the chair back. At the top is a roller, on which the awning folds, and the arms of the frame can also be folded together and laid down over the back of the chair.

NO SUNBURN HERE.

canopy can be readily seen, persons who are not so fortunate as to have porches will be able to sit in the sun, with no fear of its effects, and collapsible chairs, equipped with these awnings, will add to the comfort of outings. For us at the seashore alone this contrivance should have a big demand. Among its other merits is that of being easy to adjust in place.

Pear Shortcake.

For those who wish to cook pears, there are many recipes available. To make a Pear Shortcake, stew the pears with plenty of sugar and spice, and a little orange or lemon juice, to bring out the flavor. When cooked very tender, press through a colander; add such additional seasoning as may seem necessary, and spread the sauce liberally over some old-fashioned shortcake crust. To make the latter, take two cupfuls of flour, a teaspoonful and a half of baking-powder, half a tablespoonful of lard and sufficient sweet milk to make the dough. Mix thoroughly, and bake until the crust is brown and crisp; then split it through the center, butter it generously, and cover with the fruit.

FOR MARKING LINEN.

Here is letter in cross-stitch, suitable for marking household linen and blankets. It may be worked with ingrain cotton, mercerized cotton or washing silk.

To Clean Window Shades.

We have all heard the story of the woman who told the new maid to wash the curtains, meaning the lace ones, and came into the kitchen just in time to discover the newest window shades melting in the boiler. But we do not all know that when shades are merely dust soiled the surface can be freshened by the application of hot cornmeal. The shades should first be spread out flat on a large table and the meal rubbed in by a circular motion of the palm. Then if rubbed gently with a soft, dry cloth, the meal and the dust it has absorbed will be removed without leaving any trace of either.

Removing Fish Odor.

One of the exasperating problems a careful housewife has to deal with is removing the odor of fish from silver.

Cooking utensils also retain this odor in a most tenacious way. Washing with soap and water is of no avail. Here is a reliable remedy:

Stick knives and forks into a pot of fresh earth and let them remain for about a half hour. If a frying pan or kettle gives out the fish odor, scatter them thickly with fresh earth.

RUSS MAY TAKE ANOTHER CORPS

Petrograd Reports German Loss Approaches Debacle.

BERLIN CLAIM JUST AS STRONG

Kaiser's Capital Says 40,000 Russ Prisoners Have Been Taken—Position of Armies Such, Say Russ, That Bayonet Stage Is Imminent—General Staff Silent.

Petrograd, Nov. 28.—The Russians are now pressing inwards with the object of enclosing a great part of the German army which is halted within a crooked triangle, the apex of which is west of the Koluski railway junction and the base of which bends through the country below Lawiez and Lodz. The Russians have part of their strength turned inwards against this position as a kind of siege operation but the main Russian army is now thrown outward over a wide area in order to resist the determined efforts now being made by the Germans from the direction of Thorn. The Germans are bringing reserves from East Prussia in the hope of saving the isolated advance column, and it is evident that immense numbers of troops will again be engaged. German troops are on the way from Dantzig. These troops are making train journeys of from one to four days to the frontier and then must march for five or six days in order to reach the fringe of the present battle ground. All the weight of this force comes from the north. The effort from the west through Vieln has been completely smashed and defeats suffered by the Austro-German force between Cracow and Czenstochawa, makes it hopeless for the beleaguered army to look southward through Petrokov for help.

Bayonet Fight or Surrender.

The situation has the most vital importance for the whole campaign. The German column whose existence is at stake lost a great part of its transport, artillery and ammunition before it felt the pressure of the closing operation. It is losing its rifle ammunition. The new stage must be

a bayonet fight or surrender.

Russ Staff Holds Back Report. The failure of the Russian government to announce the extent of the victory gained over the Germans in Poland, according to correspondents of newspapers here, and there is a reflection of the feeling in London.

Notwithstanding the reticence of the government which is accounted for, conjecturally, on the score of conservatism, evidences multiply that the Russian victory is fully as great as has been claimed by the news gatherers for London, Paris and Rome papers. Lord Kitchener's announcement in the house of lords is an indication that the Russian government privately notified Great Britain. The Army Messenger of Petrograd, the organ of the Russian general staff, published the following:

50,000 More May Surrender.

"The Russian troops have redoubled their offensive. An entire German corps of 50,000 men surrendered when cut off from the main army in Poland. Another corps has been surrounded and probably will have to surrender.

"The terrific losses suffered by the Germans have compelled them to weaken in their offensive, though they have rushed up great numbers of reinforcements. It is expected that formal announcement of a complete and overwhelming victory in Poland will be made by the Grand Duke Nicholas within a short time.

"Our successes, continue in Galicia, and the Russian troops that penetrated Hungary have taken several thousand prisoners."

Berlin Expects Victory.

Berlin, Nov. 28.—(Via London.) Military observers here express the opinion that the success of General von Hindenburg's army near Lodz, in Russia in Poland, apart from the enormous number of Russian prisoners taken, has served to further improve the German-Austrian situation in the east.

The most important event of the fighting, army officers point out, was the destruction by the Germans of 100 cannon, which the Russians will be unable to replace without the greatest difficulty. While the approach of new Russian reinforcements has delayed a decision, the fact that those reinforcements will not be able to arrive simultaneously with reinforcements from Warsaw will give the Germans a chance, military men assert, to attack the oncoming forces before they can combine.

WHAT THE ELECTION TEACHES.

Leslie's Weekly contained an editorial on the recent election which is interesting, and true. It is that the election teaches:

That a political ingrate has few supporters and less friends.

That the first gun for returning prosperity has been fired.

That capital will once more seek investment.

That the people prefer prosperity to partisanship, and the statesman to the demagogue.

That business men have discovered that they have a real interest in politics.

That the era of trust busting and railroad smashing is approaching its end.

That the protective tariff still has many ardent friends in the American workshops.

That the labor vote is not controlled by Sam Gompers, but is as independent as any other vote.

That the workmen of Pennsylvania, New York, Ohio, Connecticut, New Jersey and all other great industrial states know who fills the dinner pail and the pay envelope and who keeps them full.

That the people are not eager to pay an income tax and also a hundred millions in war taxes in time of peace.

That the people are opposed to a Congress that sat longer and spent more money than ever assembled in his country.

That the policy of watchful waiting in Mexico, costing \$10,000,000 and seventeen precious lives, is not enthusiastically approved in view of the fact that its tremendous cost could have been avoided if this country followed the example promptly of other first-class powers and recognized the Huerta government.

That President Wilson's absolute domination of Congress has ended. Defeated members will not feel in the mood to take further orders.

That the Interstate Commerce Commission will concede fair treatment to the railroads or be retired from the public service.

That President Wilson will not be renominated, but that his party will turn to a conservative statesman of the Underwood type.

That if Charles S. Whitman makes as good a governor of New York as he has made a district attorney of New York County, he will be the republican candidate from New York for president in 1916 with a united party behind him.

That the thinking people rule! "Onward Christian Soldiers!"

MISSIONARIES OF PEACE

In an open letter to the secretaries of the army and navy an interesting suggestion is made by Dr. Frank Crane. Protesting the expenditure of \$250,000,000 for military purposes he advises devoting a small portion of that sum to sending out our former presidents, Roosevelt and Taft, "to capture the friendship of the world." Undoubtedly this will carry a large appeal. Both Roosevelt and Taft enjoy to a remarkable degree the friendship and esteem of the world at large. Both have received unusual marks of the respect of populace as well as rulers of the world nations. To have American ideals and purposes plainly set forth by these two foremost Americans might accomplish all that Dr. Crane hopes. If more such evangelists were necessary, Ellhu Root might be added, in recollection of the remarkable results of his visits to the South American republics. It is an indisputable fact that the United States is too vaguely known throughout the world. Its altruism is misunderstood and unappreciated. If it could be set right in the eyes of the world, if it is an approvable thing to do, no better men for the purpose could be selected.—St. Paul Pioneer Press.

WHAT BUSINESS NEEDS.

Just at the present time, a decision by the Interstate Commerce Commission favorable to the railroads would do more to aid business than anything else. But not only does that body of political appointees bear an antagonistic attitude toward the roads, but is also afflicted with the disease of delay. In the meantime the railroad systems of the country, models for the wheel world of transportation, are slowly starving to death. It is strange that a few office holders in Washington should be in a position to ruin these land marks of American ingenuity and commercial progress.

THE TWO BURGLARS.

The situation in Mexico is illustrated by the case of the two burglars who fell out.

Carranza climbs up on Villa's shoulders and forces the window. Holding onto the sill he tries to kick Villa away.

But the pal is not to be driven off by the snapper up of other men's achievements, so Villa grabs the first chief's leg and tries to pull him down.

The one thing certain about the situation is that Carranza will get a hard fall.—New York Mail.

AUTOMOBILE HEADLIGHTS.

In the larger cities the police regulations force automobile drivers to screen the lenses of their big headlights while driving in the city streets, and the rule has proven itself to be a very effective reducer of accidents.

Especially manufactured screens are used or soapy preparations are rubbed on the glass and allowed to dry. This breaks the direct glare of the lights and still allows sufficient light for all purposes when driving in town. The lights are confusing to approaching drivers of all sorts of vehicles and to pedestrians crossing the streets, and this confusion often results in an accident.

The railroads will haul the Christmas goods at considerably less than cost this year, thereby contributing to the Christmas cheer. The cheer will not be over-abundant in the directors' rooms of the railroads, however, and the stockholders are not delighted over the situation.

The progressives and socialists are effecting a combination, so it seems. Well, it is fitting. Those few progressives who are left were never very far away from the socialists.

PEACE IN CHINA.

The war goes on, the soldiers labor twelve hours a day at slaying foes; and men are wielding sword and sabre who should be plying spades and hoes. There is no sign of early quitting, since neither side can overwhelm; and grand old China does her knitting, and peace abides within her realm. The rage grows hot, instead of colder, among most nations not at war; each has a chip upon its shoulder, and wonders what it's waiting for. They fear the struggle will be over before they have a chance to whoop; but China bales her hay and clover, and puts up cans of birds-nest soup. In her calm blood there is no fever, she hones for not the field's alarms; she does not wish to swing a cleaver, or snickernee, or other arms. She lists not to the martial clackers, she entertains no frenzied hates, but wisely builds her cannon crackers, and ships them proudly to the States. From Sacramento to Salina we jeer the lowly Mongol's name and glibly talk of "Heathen China," and laugh to scorn her quiet game. But now the world is battle crazy, old China 'tis that puts up ice; inscrutable, her methods mazy, she calmly stews her rats and rice.

PRESIDENT PROTESTS AERO BOMBARDMENTS

Another "Scrap of Paper" Confronts Warring Powers.

Washington, Nov. 28.—President Wilson has communicated unofficially to the diplomatic representatives of the United States in the belligerent countries of Europe his disapproval of attacks by bombs from air craft dropped on unprotected cities occupied by non-combatants.

The president was careful not to take the matter up officially and did not even make his communication through the state department, but personally addressed the American ambassadors abroad. The president took this course, it became known nearly two months ago. The facts came to light through the publication of a report that the president had discussed the matter with European diplomats here.

This, however, was denied by some of the prominent diplomats mentioned in connection with it, including the German ambassador.

It is believed here that the president called attention to the article in The Hague convention of 1907, to which all the principal belligerents are signatory, which provides for notice of twenty-four hours before bombardment or attack in order that non-combatants may remove themselves from the danger zone.

Whether there have been any unofficial responses from the belligerents is not known here.

No Representations Says Bryan.

Washington, Nov. 28.—There have been no representations by the United States to belligerent governments on the subject of bomb dropping from air craft Secretary Bryan declares.

State Game Warden Declares Big Game Is Disappearing Too Fast.

Biwabik, Minn., Nov. 28.—"Unless steps are at once taken to protect partridge from unscrupulous hunters, the game birds will soon be extinct in Minnesota," said Game Warden Geo. F. Wood here.

"Even more serious than the extinction of the partridge is the rapid decline in the number of moose. They are becoming uncommon in this section of St. Louis county, where they used to range the hills by thousands. Every foreigner has a high powered gun."

INDICT HARKER IN BANK CRASH

Son of Illinois University Dean
Released on Bond.

TWO CHICAGOANS ARE SOUGHT

Promoters Held With Cashier Accused
of Borrowing on Insufficient Security—Judge O. A. Harker, Father of
Cashier, Declares Son Is Innocent
of Wrongdoing.

Marion, Ill., Nov. 28.—United States deputy marshals are seeking H. J. Froelich and James J. West of Chicago, who were indicted by the federal grand jury in East St. Louis, Nov. 13, in connection with the closing of the First National bank of Johnson City, Ill.

In this connection, O. A. Harker Jr., former cashier of the institution, faces a charge growing out of the alleged misplacing of more than \$100,000 of the bank's funds.

Harker, who also was indicted by the East St. Louis grand jury, was arrested and released on bond. He now is in Tennessee, looking after some of his interests there. It was said at Johnson City today. He is a son of Judge O. A. Harker Sr., dean of the law school of the Illinois State university. Judge Harker's home was in Carbondale, Ill. A telephone message from Carbondale said that the Harker family had taken up their permanent residence in Tennessee.

Names Harker as Principal.

The indictment names Harker as principal and Froelich and West as abettors in the alleged misplacement of the bank's funds. The bank was closed three months ago and placed in the hands of Robert C. Garrett of Princeton, Ky., as receiver, following an investigation by National Bank Examiner Charles R. Burton.

Harker is charged with having made loans to Froelich and West, who are said to be promoters, of more than \$100,000, and having accepted securities which were not worth the amount of the advancements.

Some of the Liabilities.

Among the listed liabilities of the bank are \$62,250 in paper of Froelich and West and \$14,337 of Harker's personal notes. A loan of \$8,823 was made to an Illinois manufacturing concern and one of \$6,869 to a similar business in St. Louis.

The investigation of the bank's affairs, it is charged, disclosed that when Froelich's debt to the bank grew to exceed \$50,000 Harker appealed to West, who is said to have promised to protect Froelich's paper.

Judge Harker Defends Son.

Champaign, Ill., Nov. 28.—Judge Oliver A. Harker, dean of the University of Illinois College of Law, whose son, O. A. Harker Jr., former cashier of the National Bank of Johnson City, Ill., was indicted by the federal grand jury at East St. Louis, said that his son had been no way culpable.

A statement, credited to District Attorney Karch, that the dean had advanced \$75,000 to cover an alleged shortage in the accounts of the young man was declared to be without foundation.

Father's Competence Swallowed Up.

The Johnson City bank was closed last August.

"Bert" Harker is a university graduate and has a reputation. Before going to Johnson City he was connected with a bank in Champaign.

Judge Harker is not a rich man. It is believed that much of his competence has been swallowed up by the bank trouble. He has been ill for several days, and has not left his house. But he spoke vigorously when he declared that his son had not been guilty of any wrong doing.

He scouted the story that he had lost more than \$20,000.

THREE BRITISH SHIPS GO DOWN

Public in Near Panic as Disasters Are Announced.

SUBMARINE SINKS STEAMERS

British Collier Strikes Mine off Coast of Great Britain—Blowing Up of Bulwark Comes From Internal Explosion—The Kaiser Is Reported at Kiel.

London, Nov. 28.—Three more British vessels were sunk by the Germans, following the blowing up of the battleship Bulwark by some mysterious means, and the alarm of the British public has grown greatly.

The British admiralty announces that the collier Khartoum had been blown up by a mine off Grimsby, at the mouth of the Humber. Hardly had this announcement been made when Lloyd's reported that the British steamers Malachite and Primo had been blown up and sunk by German submarines off the coast of France.

The Khartoum's crew all was saved and landed at Grimsby. The vessel was a valuable one used by the navy.

The fate of the crews of the other two steamers is not known.

Bulwark Wrecked From Within.

London, Nov. 28.—Additional details concerning the loss of Sheerness yesterday of the battleship Bulwark and its entire crew of 700 to 800 men, with the exception of fourteen, make the admiralty theory that it was blown up by an internal explosion more and more plausible. An official inquiry was opened at Sheerness this morning.

It is believed that the explosion was caused by the fall and bursting of a twelve inch lyddite shell in the magazine.

Whether the explosion was caused by accident or design is a question to be determined by the commission that has been appointed to investigate.

Thirty bodies from the Bulwark were recovered in the Thames. Most of them are mutilated almost beyond identification.

Kaiser at Kiel Canal.

The Hague, Nov. 28.—Kaiser Wilhelm spent several days at Kiel last week, it was reliably reported here. It is believed his presence at the German naval base foreshadows pronounced activity on the part of the fleet.

The Germans will soon be relieved of the necessity of watching the Russians in the Baltic. This will soon be icebound and Russian operations there will be rendered impossible.

British Losses Small.

London, Nov. 28.—That the losses to the British merchant marine have not been as great as was anticipated since the opening of the war was the assertion of Winston Churchill, first lord of the admiralty, in the house of commons this afternoon.

Churchill said he had expected a 5 per cent loss to the mercantile marine, but during the first, second and third months of the war the loss has been only 1.9 per cent. Churchill declared that the British fleet would be increased by fifteen war ships by the end of 1915, while the maximum reinforcements Germany could receive up to that time was three ships.

Mr. Churchill added that there was no reason for nervousness or alarm regarding the British navy or the effectiveness of its work. The French navy, he said, has complete command of the Mediterranean, while the Japanese navy is in control of the Pacific.

Kills Wife's Mother, Is Slain
by Brother-in-Law.

Montgomery City, Mo., Nov. 28.—Mrs. Sallie Ryan, aged sixty, was shot and killed in her yard by Isaac Strickland of Pinckneyville, Ill., her son-in-law. A few minutes later Strickland was shot and killed by Rex McHoney, another son-in-law of Mrs. Ryan. McHoney was arrested, but was not placed in jail. In a statement he expressed regret over the killing and said he acted to protect other members of the family.

The Stricklands recently separated. Mrs. Strickland coming from Pinckneyville to the home of her mother. Two days ago Strickland arrived and, according to his wife, he threatened to kill her when she refused to return to him.

The morning of the slaying Strickland went to the Ryan home. The first person he saw was his aged mother-in-law, who was in the yard. Strickland shot her down and then started for the house. The shot had alarmed the occupants of the house and when they saw Strickland the doors were locked. Strickland broke the glass in the door and then McHoney fired the shot, striking Strickland in the face, killing him almost instantly.

HEARST MAY HAVE TO PAY SOME REAL COIN

New York City Wins Suit for
Heavy Reimbursement.

New York, Nov. 28.—William Randolph Hearst must reimburse the city for the judgment of \$24,453.29 obtained by the widow of Policeman Dennis Shea, who was one of a half dozen killed in an explosion of fireworks in Madison Square garden Nov. 4, 1902, according to a decision handed down today by the appellate division of the supreme court. The decision sustains the finding of the lower court.

Hearst was running for congress when he obtained permission from the city to have a fireworks display in the interests of his candidacy. Shea lost his life in the explosion that resulted and his widow sued the city and obtained a verdict. The city also was compelled to pay in several other cases.

Now, after the matter has been in the courts for twelve years, the appellate division holds that Hearst must pay the city. It is estimated that the decision, should it be sustained in the court of appeals will cost Hearst more than \$100,000 in addition to what he has already spent in fighting the suits.

HYPHENATED AMERICANISM

It Used to Be Ireland, Now Bohemia Must Divide Us.

Chicago, Nov. 28.—Hope of Bohemian-Americans for a Republican form of government for their fatherland is crystallizing. The movement has as its object the presentation to world powers, at the proper time, of a Bohemian-American of a definite proposal to restore to Bohemia its independence.

Behind the movement is a group of prominent Bohemian-Americans. They compose a junta which meets in Chicago from time to time to work a plan to free Bohemia from the domination of Austria-Hungary.

The warm weather has taken the frost from the ground during the past few days and reports from about the county indicate that farmers have taken advantage of conditions to do their "spring" plowing, thus gaining a great deal of time. Supervisor C. C. Buckaloo reports many farmers doing this in Nelson township and Wilbur Crawford states that men on his farms are doing likewise.

XX Century Firepot.

The end of Inventions in Firepots

A score of Furnaces have imitated this firepot something just as good; they tell you for less money.

Come in and we will explain to you the working principle of this firepot, when used the XXth century way.

ONE-THIRD Less Fuel and Same Amount of Heat.

DOES YOUR FURNACE

Puff, Smoke and do everything that a poor furnace does, perhaps you need some repairs, a new grate, another register, more cold air to give it better circulation.

REMEMBER WE ARE IN THE FURNACE BUSINESS

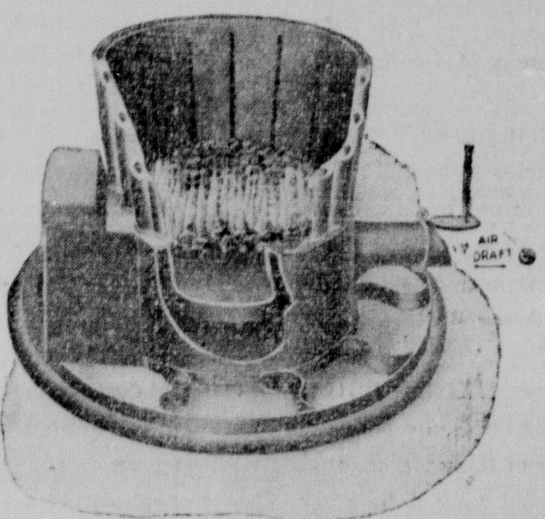

and can give you the benefit of our study and experience in heating homes successfully.

With the XXth century Furnace a 4-room cottage heated all winter with \$10.00 worth of slack coal.

We guarantee the firepot against cracking for 5 years.

Never puff gas or soot. Has a self cleaning Radiator, Large Ash pit and Ash door. Burn all kind of fuel.

IF WE KNEW OF A BETTER FURNACE WE WOULD SELL IT!

GERMAN CRUISER SCHARNHORST, WHICH LED IN BATTLE OFF CHILL.

The German cruiser Scharnhorst, of 11,600 tons, and a speed of 20 knots, led the Germans in the naval battle off the Chilean coast, Nov. 1, when the British cruisers Good Hope and Monmouth were sunk. This is a part of the report made by Captain Luce of the cruiser Glasgow to the British Admiralty from Rio de Janeiro, where its vessel is being repaired.

"The enemy, who had turned south was now in a single line ahead and about twelve miles distant. The Scharnhorst and Gneisenau were in the lead. At 6.18 the speed was ordered up to seventeen knots and the flagship signalled to the Canopus: 'Am going to attack the enemy now.'"

"The enemy was now 15,000 yards

away and maintained this range, at the same time sending out wireless signals. By this time the sun was setting immediately behind us from the enemy's position, and while it was above the horizon we had the advantage in light, but the range was too great. At 6.55 the sun set and the visibility conditions were altered. Our ships were silhouetted against the after glow of the sun and the falling light made the enemy difficult to see.

"At 7.30 the enemy opened fire at 12,000 yards, followed in quick succession by the Good Hope, the Monmouth, and the Glasgow. The two squadrons were now converging, each ship engaging the opposite number in the line. The growing darkness and the hazy spray of the head

sea made firing difficult, particularly for the main deck guns of the Good Hope and the Monmouth.

"The enemy, firing salvoes, got the range quickly. Its third salvo caused fire to break out in the fore part of the Good Hope and the Monmouth and both ships were constantly on fire. At 7.50 an immense explosion occurred on the Good Hope at amidships, the flames reaching 200 feet high. The total destruction of the vessel followed.

"It was now quite dark and both sides continued firing at flashes of the opposing guns. The Monmouth was badly down by the bow and turned away to get her stern to the sea, signalling the Glasgow to that effect."

IV. Two kinds of eggs.

(1) Fertile, both sex together.

(2) Infertile, never spoils.

V. Don't feed poultry spoiled or rotten food.

Twice during the week we handed in our notes to our superintendent for approval.

The places of greatest interest which we visited in the city were the capitol building or State House, Lincoln's home, the Arsenal, the old State House, now used as a court house, and the Lincoln monument at Oak Ridge cemetery.

At the fair the live stock exhibit for 1914 was greater than for any previous year. Not only the old barns, but also three new barns were filled and still they lacked room. Large tents were put up to house the stock that failed to find room in the buildings. This was especially so in the cattle exhibit.

Each day certain classes of stock were taken to the Coliseum where they were judged and the ribbons awarded.

One forenoon the boys at the State Fair school were given a lecture on cattle judging and breeding and four fine cattle were brought from the stables over to the camp and were used to illustrate the different points made in the speakers remarks.

The exhibits of farm machinery were very extensive, including all the machinery used in cultivating the ground, sowing or planting of seeds, caring for the growing plants, harvesting the crops, storing and marketing the same, or both farm and garden products.

The most interesting piece of machinery to me, was the gas tractor, intended as the motive power for plowing, discing, dragging and many other uses on the farm.

The corn elevator, which can also be used for small grain, has become almost a necessity on nearly every farm where a large acreage of crops are produced.

On machine, new to me, was one used for digging ditches for tile.

Of fruits there was a fine collection, including apples, pears, peaches, grapes, etc., of many varieties.

The display of flowers in the Dome building was grand. This exhibit consisted of quantities of ferns, potted plants, many vases and jars of cut flowers and a number of "made pieces." Also cut-flowers, fine leaved ferns and trailing plants used in the dining table decorations. The three tables were very beautiful with their fine linen, silver, china, cut glass and flowers.

In the pantry exhibit we found breads, pies, cakes, and candies of all kinds and descriptions. Also preserves, canned fruits, jellies, fruit butters, and pickles of many kinds.

By these exhibits we know that the cooks of Illinois know how and do make good things to eat.

In the making of these good things the cooks need stoves. Knowing this, stove manufacturers were on hand with large exhibits. Of cook stoves there were hard and soft coal stoves, gasoline kerosene and gas stoves and fireless cookers. For heating purposes there were hard, and soft coal, and chunk stoves. Also hot air and hot water furnaces.

Lee County Boy Writes Of State Fair School

Continued from Page 1.

kitchen tents. It seemed to me that the managers had taken great pains to provide for the comfort of the boys in securing the best army tents, good canvas cots, and two heavy army blankets, and for their health in locating the camp on high ground as a means to good drainage and sanitation.

I learned also that there were two physicians in camp that the boys might have medical attention if necessary. They also served as health officers of the camp.

The Boys' State Fair School was founded on an educational basis and has grown in importance and in attendance each year.

The first session, in the year 1910, had in attendance 124 boys, representing 61 counties; the second year 194 boys, representing 91 counties; the third year 212 boys representing 94 counties; the fourth, 269 boys, representing 94 counties and this, the fifth year, about 300 boys, representing nearly if not all the counties of the state.

The object of the school is to bring together boys from all the counties of the state that they may see, and realize more fully by seeing the exhibits brought together at the Fair, the resources and possibilities of their own state, and to be able on returning home to tell their families and the people of their communities something that may awaken a desire to improve on their present methods and results.

Perhaps it will be of interest to speak of the discipline and life of the camp. Each morning we were called by the blowing of the bugle at 6:30 o'clock. About 15 minutes later the bugle was sounded again and all of the boys formed in line for the morning exercise, which this year was a "trot" and "walk" alternately for a mile or more. Some years the boys have had physical exercise in place of the "trot." Several mornings after returning from the "trot" we lined up at one end of the camp and marched toward the other and picked up all the refuse, such as sticks, paper, etc., which we found on the ground and took it to the garbage cans. After this we "washed up," and listened for the bugle call for breakfast. At the call we formed in line and marched by the tables on which were placed plates and cups. Each person as he passed took a plate and cup and as he passed the cook he was given vegetables and meat on his plate and coffee in the cup. A couple of times we got ice tea. The knives, forks and spoons, bread butter, sugar and milk were on the tables in the "mess-tents" where we sat at tables to eat.

As each finished eating he carried his dishes to the table from which he got his plate and cup. An officer at the table placed a knife, fork, spoon, cup and plate on the table,

each a distance from the other and as the soiled dishes were brought back each was placed with its kind. After the dishes were all in they were washed by parties hired for the purpose.

At about 8:15 we went to the first lecture of the day and thereafter every hour until noon when the bugle sounded for dinner. We formed in line and went to the mess tent the same as in the morning. After dinner, at 1:30 p. m., lectures began and lasted until 3:30 p. m., when we were allowed to go over to the Fair buildings and to stay until supper time. At about 5:45 we were called by the bugle and formed in line to go to supper.

After supper we went to another lecture. At 10 o'clock taps were sounded; everyone went to bed; lights out.

Every day was practically the same, except that some days several boys in charge of a superintendent would go to the city to see places and things of interest there.

The discipline, while some might call very strict, was not unreasonable so, and should have no terrors for the boy or man who was there for business. Any right minded person who did his part as he should could not complain of the treatment accorded him by the officers in charge.

While each lesson was in the form of a lecture the boys were required to take notes for reference. To illustrate, I will give my notes on "Alfalfa" by A. P. Grout:

1. A deep rooted plant.
- (a) Grows where other plants will not.
- (b) Grows deepest of all farm products.
2. Feeding alfalfa to hogs saves one-third the cost of corn.
3. One ton of alfalfa is equivalent to one ton of wheat bran for feed for cattle.
4. Growing alfalfa.
 - (1) Soil should be well drained.
 - (2) Water within five feet of surface.
 - (3) Ground well manured.
 - (4) Plow ground before sowing seed. Sow with alfalfa a light seeding of oats or rye.
 - (5) Use limestone on ground if need be.
 - (6) Don't sow seed too deep.

Also notes on "Poultry on the Farm," by D. O. Barto.

- I found on the farm, chickens, turkeys, geese, ducks, guinea-fowl, pheasants and pea fowl.
- Importance of poultry.
 - (1) Interests many people.
 - (2) Profitable occupation on the farm without very large cost.
 - (3) Women most successful managers of poultry.
- Ways of keeping eggs.
 - (1) One part waterglass, 10 parts water.
 - (2) Waterglass 75 cents per gallon.

In the educational and art departments there were many specimens of work from both the city and country schools, consisting of map-making, writing, needle work, manual training, etc.

Of the vocational exhibits the Crane Technical school of Chicago, had a fine display of woodwork, and the State Reformatory at Pontiac had an extensive exhibit of both wood and metal work. Both of these exhibits showed great skill and fine workmanship.

There was also quite a display of merchandise from the city stores of both ladies and gentlemen's furnishings.

The Boys' State Fair school is an institution held in connection with and during the week of the state Fair, and is located near the southwest gate of the Fair grounds.

The purpose of the school is to give a number of boys from every county of the state an opportunity to hear a series of lectures pertaining especially to the farming interests of the state and to visit the state Fair a few hours each day during the fair week, at small expense, as \$5 paid for board and lodging for the week, and \$1 much more than pays for incidentals such as street car fare, candy, peanuts, etc., unless one is going the limit. This does not include seeing "Happy Hollow" a ravine with side shows on each side. No side shows are allowed anywhere on the Fair ground except at this place. Of course if one takes in all of the Happy Hollow attractions his expenses will be much more, I do not know how much.

There is so much to see that it is worth one's time and effort to see, and at no extra expense that Happy Hollow need not be considered unless one so desires. One's actual expenses are railroad fare (be sure to get a round trip ticket) from your home to Springfield, \$5 for accommodations at the camp, and \$1 more or less, as you chose, for incidentals. All pencils, tablets etc., are furnished the boys free.

The boys and superintendents this year wore white caps and a badge which read "Boys' State Fair School, 1914." This badge served as a free pass to all attractions at the Coliseum. In fact everything except the side shows were free to the boys. They were admitted free to the horse show in the evening, while others paid 50 cents admission.

The school was assembled by the sounding of the bugle and called to attention by Prof. Thompson, principal of the Springfield high school, and was conducted as a series of lectures under the following titles:

- Opportunities for Boys—Prof. Fred Rankin.
- Cells and their Battles—Dr. J. D. Robertson.
- Road to Success—H. S. McGill, Jr.
- Animal Husbandry—J. H. Burrows.
- Poultry on the Farm—D. O. Barto.
- Planning a Vocation—J. A. Puffer.
- Diseases of Animals—Prof. Hughes.
- Our Friends, the Birds—Mr. Nolan.
- A Boy and His Calling—J. A. Puffer.
- Alfalfa—A. P. Grout.
- Farming as a Vocation—D. Davenport.
- Home Vegetable Garden—C. E. Durst.
- Public Health—Dr. W. A. Evans.
- Crops and Soils—W. P. Miller.
- Community Service—R. E. Hieronymus.

Greatest of the advantages realized by the boys was in attending the above lectures which were free to them and given by men who could interest and hold their attention. Probably none of the boys will ever again enjoy a week so full of good to themselves as the week they spent at the Boys' State Fair school.

The benefits to the localities represented by the boys who attended the Boys' State Fair school following the reading of the boys' reports will be in having interested other boys and their parents in the Boys' State Fair school that in other years other boys will be anxious to go and enjoy the privileges which the boys of this and preceding years have enjoyed, also that from the reading of the notes taken on the lectures, there will something of interest or benefit to those who may desire to use the notes as a guide, and to go more fully into the detail of any of the subjects mentioned in the reports.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's recipe of Sage Tea and Sulphur darkens so naturally that nobody can tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.

The Death Warrant

The noble bird will get his quietus just prior to Thanksgiving day, to help us rejoice the more merrily. It will take a nice fire to bring him to the table in a savory shape. Our part of Thanksgiving cooking is the supplying of good coal—coal that will roast and brown your turkey to "Uncle Sam's taste." We await your order for Thanksgiving coal.

Facts About
DRAINAGE DISTRICT NO. 1
and
Bates County, Missouri.

41000 acres of rich black corn and alfalfa land in the Marias Des Cygnes river valley in Bates County, Missouri, has been reclaimed from flood waters by the construction of a new channel for the river, and other work. The work is completed. This new channel is 23 1/2 miles long, 19 miles of this channel is 80 feet wide and 20 feet deep, with 4 1/2 miles is 100 feet wide and 20 feet deep. There are 12 miles of lateral ditches and as the new channel crosses the old channel but twice the old channel has been shortened seventeen miles by cutting off four bends. The system is comprehensive and complete and pronounced by eminent hydraulic engineers as making a great future for the lands affected.

Four-fifths of the land is prairie. Soil is from 8 to 20 feet deep. Like Missouri Bottom Land. There is no better corn, winter wheat or alfalfa land. The valley is from 2 to 6 miles wide. The fall is 26 inches per mile. Price \$40 to \$65 per acre. Good terms to purchasers. 60 miles south of Kansas City. Excursion days, 1st and 3rd Tuesday of each month. For particulars address J. A. McDEVITT, Onawa, Iowa. 279 9*

Turkey Stops Interest Payment.
Amsterdam, Nov. 27.—A dispatch from Constantinople says that it has been officially announced there by the minister of finance that the interest on the loan of 1909 will be paid only to such bond holders as present themselves at the central office of the ministry of finance there. As most of the bond holders are British and French, this means the interest will not be paid.

BURDENS LIFTED

FROM DIXON BACKS—RELIEF IS
PROVED BY LAUSE OF
TIME.

Backache is a heavy burden; Nervousness, dizziness, headache Rheumatic pain; urinary ills; All wear one out. Often effects of kidney weakness. No use to cure the symptoms. Relief is but temporary if the cause remains.

If it's the kidneys, cure the cause. Doan's Kidney Pills are for kidney ills.

Read about your neighbors case. Here's Dixon testimony.

The kind that can be investigated. J. C. Kirkham, 11- E. Fourth St., Dixon, says: "I had been suffering from pain across my back for a long time, but didn't think it was caused by weak kidneys. Finally, a friend advised me to try Doan's Kidney Pills and I got a box at Leake Bros. drug store. It didn't take them long to remove the trouble. The cure has been permanent. All I said about Doan's Kidney Pills when I endorsed them before, holds good."

HOW STORMS ARE FORECASTED.

Many people have an idea that there is something mysterious and occult about the work of the weather bureau in forecasting the coming of storms, frosts and floods. Not a few think that the observers must necessarily get their data by reading the planets, the stars and the moon. As a matter of fact, the forecaster of the bureau foretells the coming of disturbances in a business like way, very similar to that in which a man who ordered a shipment of goods would estimate the date of their arrival.

Suppose a business man had ordered a carload of pineapples from the Hawaiian islands. He would know the average time it would take the steamer to make the trip to the Pacific port, the average time for unloading and loading into refrigerator cars, and the average number of days to be allowed these cars for their trip across the continent. His estimate, however, would be subject to error, because the steamship might be delayed by fog or the cars might meet with an accident.

Storms, like pineapples, as a rule do not originate in the United States. They come to us, some from the Philippines, Japan, Siberia, Alaska, Canada or the Gulf of Mexico. The weather bureau gets cable, telegraphic or wireless notice of a foreign storm. Station after station, or vessel after vessel reports the storm's arrival in its neighborhood, so that the general direction and rate of progress can be determined very early. In fact the arrival of some storms can be foretold ten days in advance.

The forecasters watch for the region of low barometer which is the storm center around which the wind blows. This whirl or eddy moves bodily forward with the general eastward drift of about 650 miles a day, in our latitudes. The forecaster determines the movement of the storm and its velocity.

When weather disturbances are reported the forecaster knows from experience about how long it takes them to reach our Pacific coast, and then how long it takes after they will reach the Atlantic coast. For example, if a storm coming from Siberia drifts eastward around the North Pole, and reappears in Alaska it should appear in Washington and Oregon in about two days; should get to the Great Lakes in six days and to the Atlantic coast in seven or eight days.

Unexpected conditions may delay storms or divert them from a straight track, just as a refrigerator car may be thrown off its schedule or be shipped by accident on a wrong road. Some of these storms deplete themselves by running into regions of high barometer which are of greater magnitude and extent than the storm itself. Some of them, however, travel completely around the world.

To keep tab on cold waves that come into the United States from Canada and Alaska, the weather bureau studies the Canadian weather reports. England sends reports from Ireland, and Continental Europe, and daily reports come from Petrograd on the conditions in Russia and Siberia.

The same business like system used in tracing the track of a storm is applied to determining the arrival of frosts.

Flood forecasts are made in much the same way. Information as to the amount of rainfall at the headwaters of streams that cause floods are covered by telegraphic reports sent by local observers. As this rain reaches the main channel, the height of the water in the channel is determined. Past records establish how much a height, say 20 feet at Dubuque, Iowa, will produce at Davenport, another station 80 miles down the Mississippi. This plan is followed all the way down the river and at each point full allowance is made for the effects of water from tributaries and from additional and local rainfall. As a result of these observations in the recent flood of Cairo, Ill., had a warning a week or 10 days in advance. The Pittsburg district can be given only 12 to 24 hours' notice, because a flood is upon them within 24 hours after a heavy rain storm.—Exchange.

HEATING STOVES
